### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 15 and 17-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Ono.

Ono discloses a method for controlling a wheel brake of a vehicle, the method including a determining a road slope 11, determining whether a parking brake is engaged 4, maintaining a braking force 'at a wheel independently of an extent of a brake pedal actuation (col. 3 lines 15- 2 1), in at least one operating state with the parking brake engaged, if the road slope points in a direction of a future travel direction of the vehicle, reducing the braking force for at least one condition (col. 3 line 11, "predetermined time").

***Allowable Subject Matter***

3. Claims 1-4, 11, 14, and 16 are allowed.

***Response to Arguments***

4. Applicant's arguments filed August 13, 2004 have been fully considered but they are not persuasive.

Applicant argues wherein the output from the grade detecting means of Ono is not used to determine whether or not to engage braking. However, applicant does not claim this limitation. The claim merely requires that a braking force be maintained if the road slope points in a direction of a future travel of the vehicle. Therefore, all that is required is that the braking force be maintained and that the vehicle is parked in a direction of future travel. There is no language indicating that one is dependent on the other. Applicant's arguments with respect to these limitations are more specific than the claim language.

### ***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
